CORRECTED INFORMATION DISCLOSURE STATEMENT

Honorable Sir:

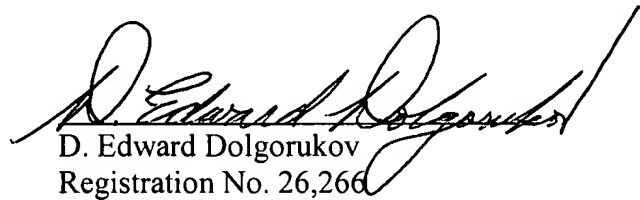

A Information Disclosure Statement was filed on June 22, 2005, after the mailing of an Office Action on the merits in accordance with 37 CFR 1.97(b)(3), and prior to the issuance of a Notice of Allowance or Final Rejection Office Action. The fee of \$180.00 required under 37 CFR §1.17(p) was enclosed. However, the Statement of Relevance required under 37 CFR §1.98 was not included, and thus, this Corrected Information Disclosure Statement is now being submitted to supply the required statement. It is courteously requested that this Corrected Information Statement be matched with the original, and all the art cited therein be considered by the Examiner. It is not believed that any additional fee is due, and it is not believed that additional copies of the references need be supplied. A Statement of Relevance follows below.

DE 39 32 766 A1 has a U.S. equivalent US 5,062,145 which is listed in the U.S. Patents section of the present information disclosure statement. This information was inadvertently not supplied when this number was listed in the Foreign Patent Documents section of the IDS. Since a U.S. equivalent exists, its abstract serves as the statement of relevance.

Offenlegungsschrift 28 10 325 is relevant because it shows an apparatus which purports to heat and humidify gases in a face mask before the user breathes in the air. However, the reference is not pertinent to the question of patentability because it does not show a laparoscopic insufflator, and the heating and humidification are done in two separate chambers.

Offenlegungsschrift DE 34 30 541 A1 is relevant because it shows a circuit configuration for the electronic control and monitoring of a respiratory gas humidifier. The electrical heating device of the respiratory gas humidifier is connected by means of two temperature sensors. One of the two temperature sensors is located close to the patient and the other temperature sensor is located close to the heater.

Respectfully submitted,

D. Edward Dolgorukov
